

FaSTBox

Luxury

IPTV Set Top Box supporting 4K UHD and designed to meet the highest requirements of luxurious 5-star hotels.

FaSTBox is a product line that covers client devices used to consume video and audio content. FaSTBox Luxury supports 4K UHD and is designed to meet the highest requirements of luxurious 5-star hotels and most demanded clients in IPTV and OTT market. Native video player utilizes hardware video decoding (up to 4K UHD) directly on chipset, which eliminates issues with image and sound jitter, picture distortion and artifacts due to insufficient performance, seen in players with software decoding.

Runs on **Android**, an absolute winner platform for IPTV and OTT client devices and No.1 mobile OS in the world.

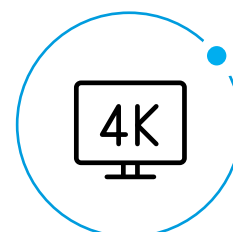

ANDROID OS 9

Performance, security and flexibility of the most popular mobile OS in the world

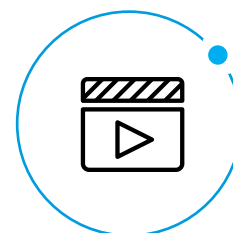

HTML 5

All WEB apps are available in embedded browser, supporting HTML 5 specifications
