## PRODUCT OVERVIEW

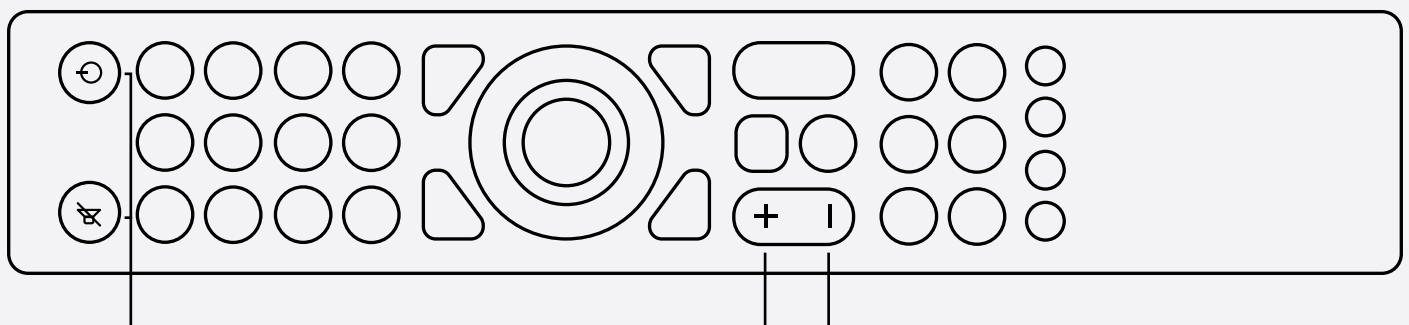

The FaSTBox BT + IR Deluxe RC is a sophisticated replacement remote control designed for various television models and brands. It offers comprehensive control over essential TV functions through its sleek design and user-friendly interface. Featuring four programmable buttons — power, mute, volume +, and volume - — it ensures full control over TV settings. The remote's infrared learning capability allows each button to be programmed by capturing and replicating signals from the original remote, providing customized integration.

The FaSTBox BT + IR Deluxe remote control ensures broad compatibility with most nevron FaSTBox models. Powered by two AAA batteries, it offers reliable and long-lasting performance. Its elegant and ergonomic design makes it a visually appealing and functional addition to any hospitality setting, enhancing the overall guest experience by integrating seamlessly with Nevron systems like the NevronWare platform.

Ideal for hospitality environments, the remote control replaces original TV remotes with ease, aligning with the mission to innovate and enhance guest services.

## FUNCTIONALITY

### 4 PROGRAMMABLE BUTTONS

Power, mute, volume down, volume up.

## TECHNICAL SPECIFICATIONS
