

FaSTBox Standard S905

Set-top box

PRODUCT OVERVIEW

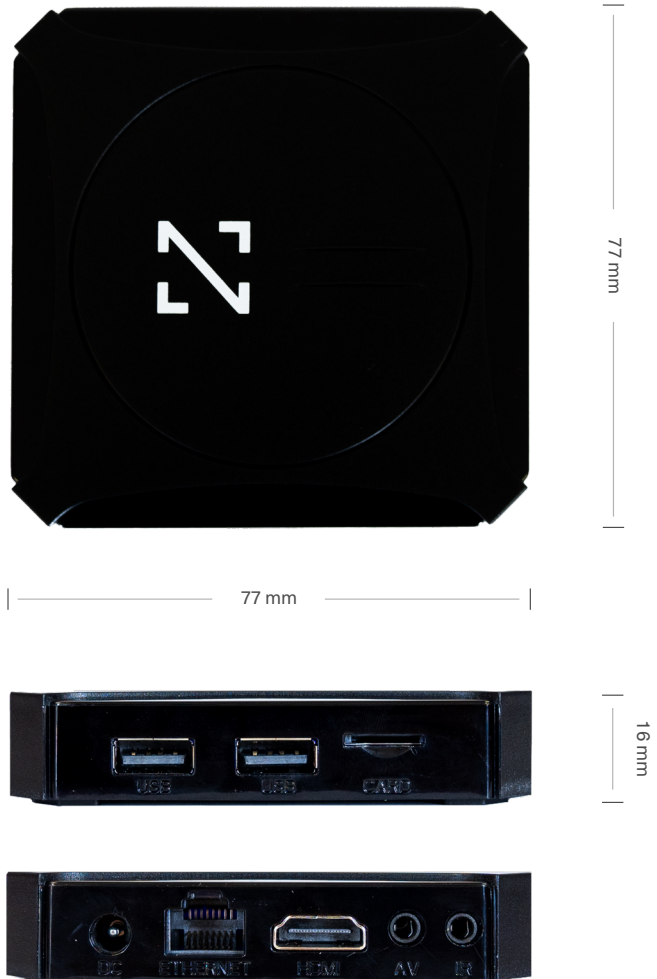

Nevron FaSTBox Standard S905 is a high-performance client device designed to deliver top-tier IPTV and OTT experiences on TV sets. Utilizing a native player with hardware video decoding of up to 4K UHD, it ensures flawless performance by eliminating issues like image jitter, sound lag, and visual artifacts that are common with software-based decoding. This ensures that viewers can enjoy crystal-clear visuals and immersive sound without any disruptions.

Powered by Android OS, the leading platform for IPTV and OTT client devices, FaSTBox Standard provides the flexibility and compatibility to access a wide range of content, both through traditional TV and over-the-top (OTT) streaming services. With Android's renowned user-friendly interface, guests can seamlessly navigate and enjoy their favorite content.

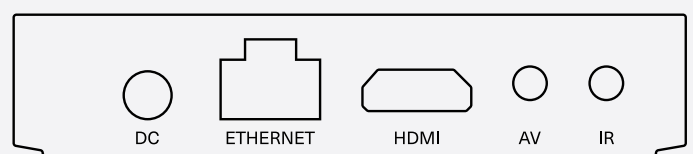

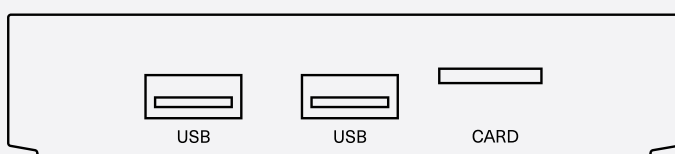

Key Features:

- **4K UHD hardware decoding:** Delivers superior picture quality and smooth video playback, ensuring no compromise on viewing experience.
- **Android OS:** Offers top performance and the most extensive range of applications and services, ensuring future-proof scalability.
- **OTT support:** Access a world of content through the Internet, expanding entertainment options beyond standard TV channels.

Designed with cutting-edge technology, FaSTBox Standard is your gateway to transforming your guests' in-room entertainment experience, ensuring they stay engaged and delighted throughout their stay.

PORTS

TECHNICAL SPECIFICATIONS

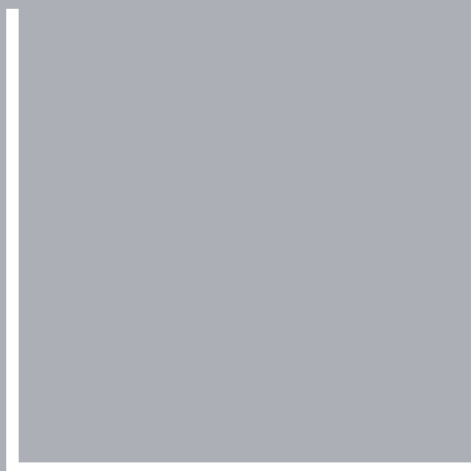

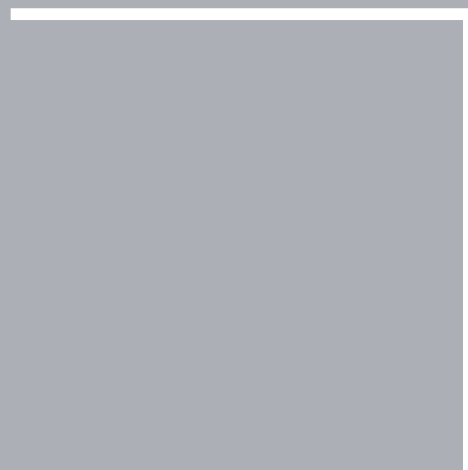

Hardware

CPU	Quad-core Cortex-A35 (Amlogic S905W2)
GPU	G31 GPU
Memory	2GB
Flash	eMMC: 16GB
Connectivity	RJ45 Ethernet and IEEE 802.11 a/b/g/n/ac (2.4G/5GH)+BT5.0 WiFi
Power	DC 5V/2A

Software

Operating system	Android 11
Video decoding	Decoding up to 4Kx2K@60fps
Video formats	AV1, VP9, H.265 HEVC, H.264 AVC, H.264 MVC, MPEG-4, WMV/VC-1, AVS+, MPEG-2, MPEG-1
Audio formats	MP3, AAC, WMA, RM, FLAC, Ogg and programmable with 7.1/5.1 down-mixing
Audio output	Built-in SPDIF/IEC958 and PCM input/output
